L29 | M=0.046

L30 | M=0.033

L31 | M=0.144

Native head-averaged 24 x 24 maps. No probability values changed; no new inference. Outside the CLIP center crop is unobserved.

CompareAttr | QID 1925371 | What do the glove and the shoe have in common? | Full: Color

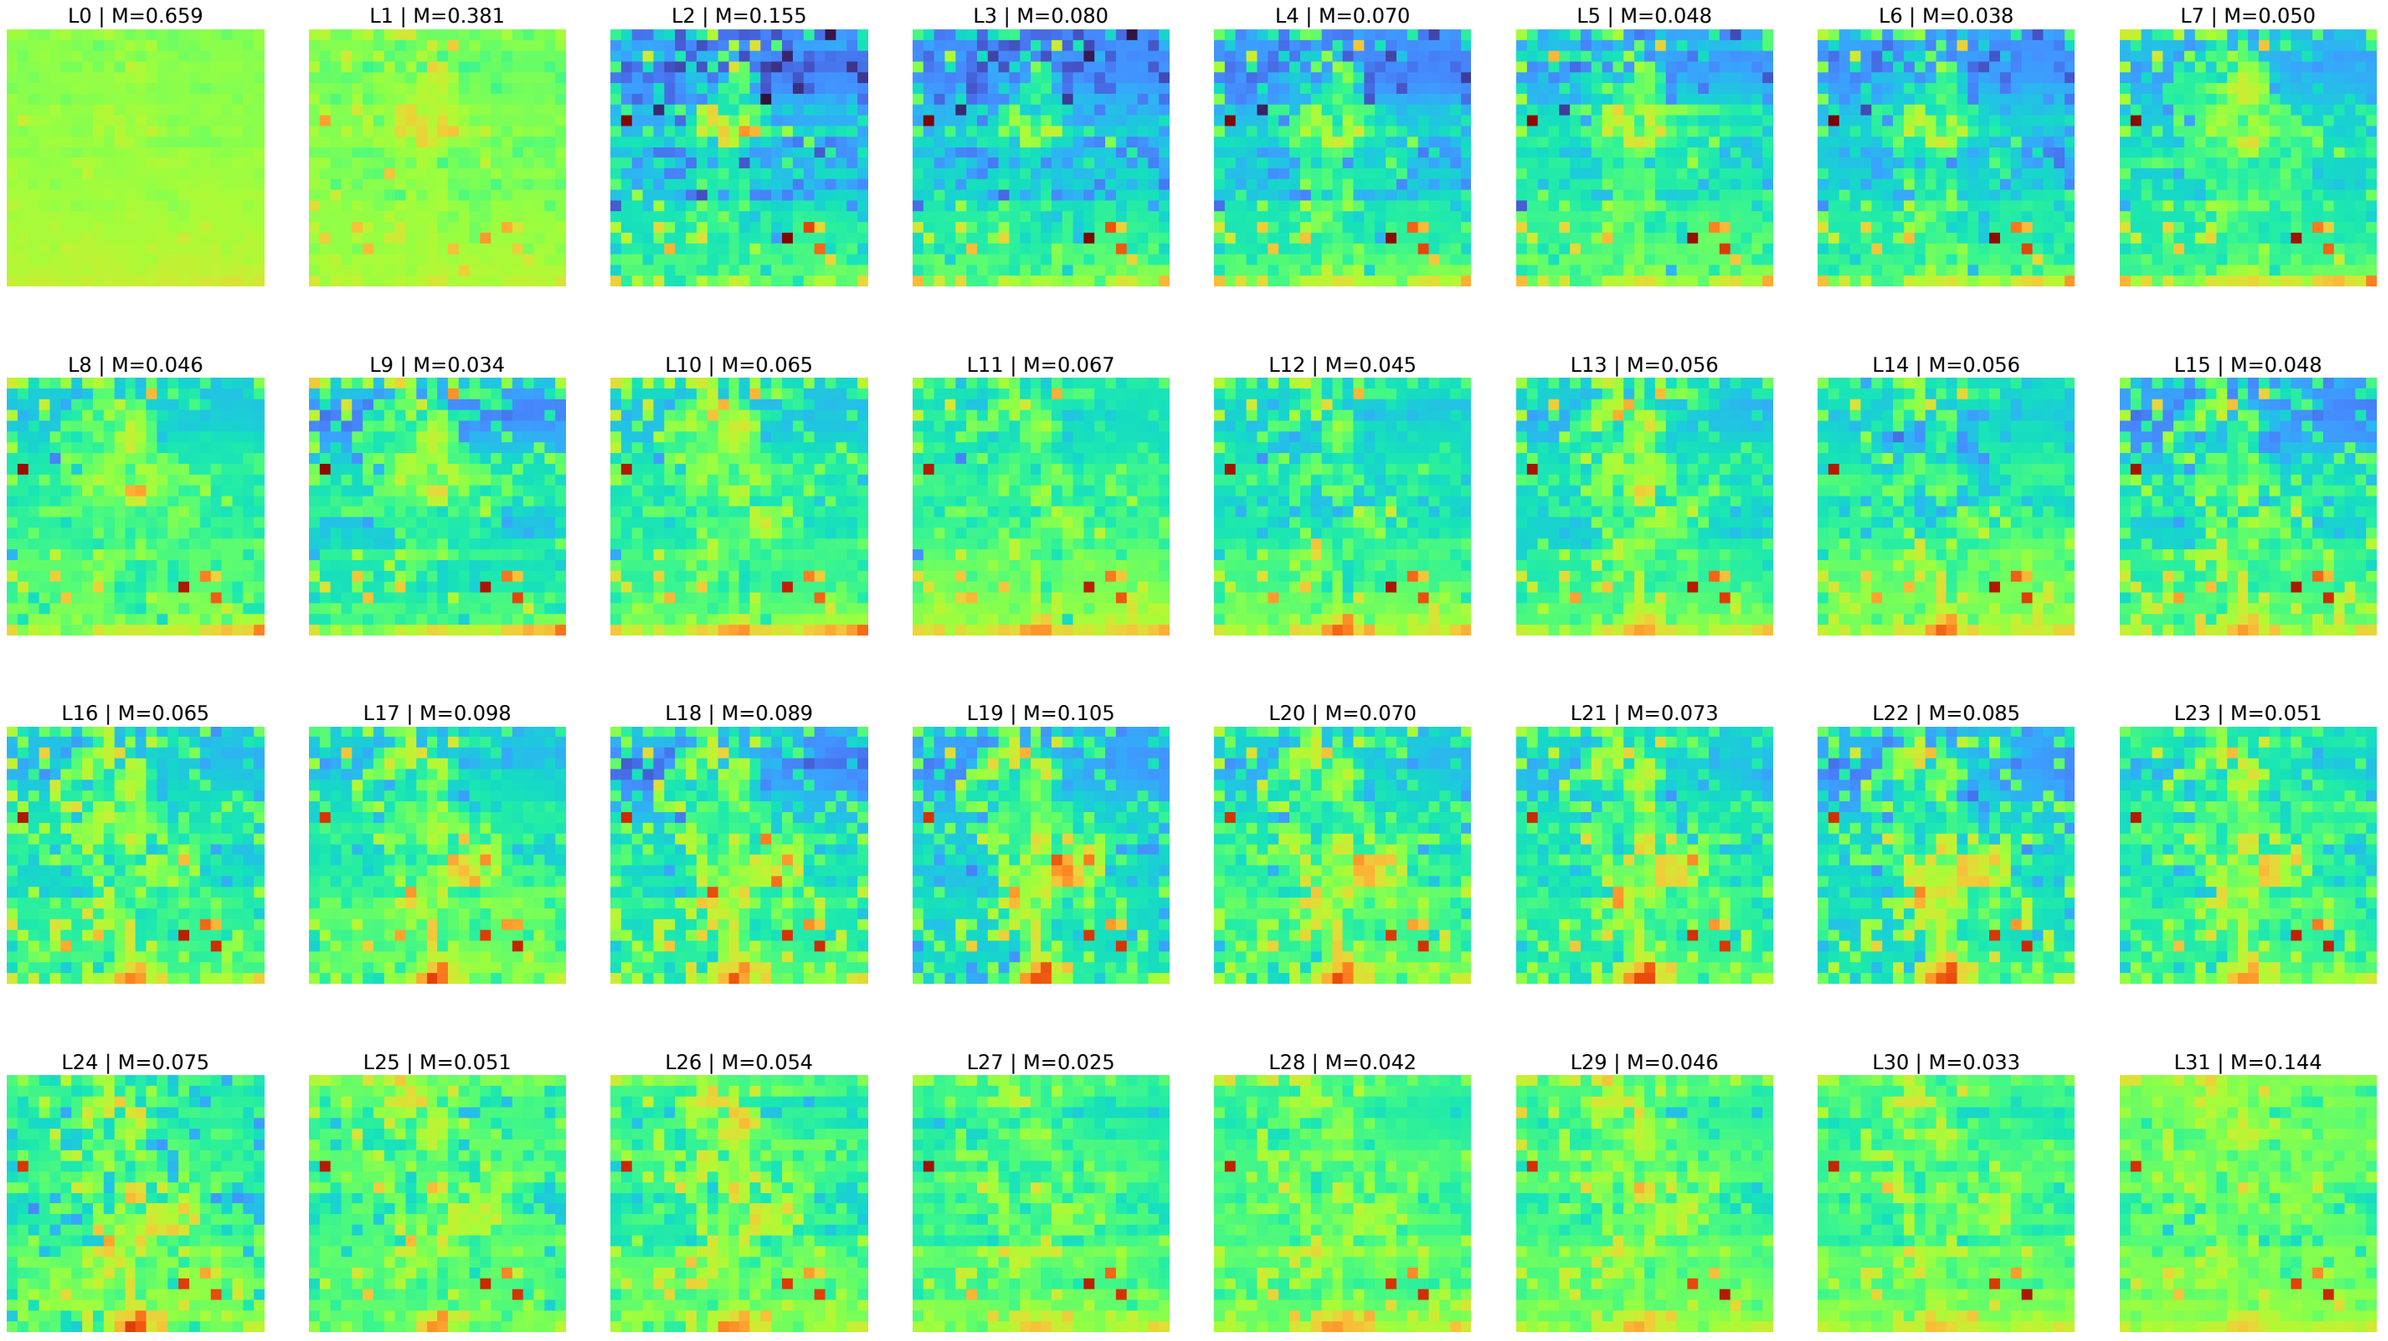

Per-layer 2-98% contrast enhancement: colors show relative within-layer display strength, NOT probability. Do not compare color intensity across layers.

Native head-averaged 24 x 24 maps. No probability values changed; no new inference. Outside the CLIP center crop is unobserved.
